

LEVEE MAY HAVE
GONE AT CAIROIllinois Town Is in
Grave Peril.SHAWNEETOWN IS ALSO
IN IMMINENT DANGERGovernor Sends Troops to Cairo
by Special Train.

Springfield, Ill., March 31.—Governor Dunne received word that the wire out of Cairo was severed, cutting off telephonic communication. Desperate efforts are being made to establish telegraphic communication. The governor fears that the breaking of communication means the levee has collapsed.

The governor refuses to leave the office of the adjutant general. He is handling messages from all quarters and is personally directing the troops and the rushing of supplies.

Springfield, Ill., March 31.—Illinois threatens to become the center of the flood distress. Starting messages have been received by Governor Dunne and Adjutant Dickson indicating that Shawneetown and Cairo are in immediate danger of being washed off the map. Other towns are in distress.

Governor Dunne has sent a rush order for 1,000 troops to proceed by special train to Cairo. Messages received by the governor from Sheriff Frasier and Mayor Parsons of Cairo describe conditions as extremely alarming. Fears were expressed that the levee might break at any minute with an inevitable heavy loss of life and an immense property damage.

The entire Seventh regiment, I. N. G., under command of Colonel Daniel Moriarty of Chicago, was ordered out by Governor Dunne.

Previous to taking this action the governor had already ordered the following five down state companies to Cairo: K of Cairo, L of Olney, B of Newton, F of Mount Vernon and C of Sullivan, all of the Fourth regiment. Lieutenant C. E. Ryman of Effingham was detailed by Adjutant General Dickson to assume charge of the troops.

Refugees Flock Into Cairo.

In talking over the telephone with Governor Dunne, Mayor Parsons stated that, despite flood warnings advising residents to move to higher ground, the number of those who have taken this advice has been offset several times over by thousands of refugees from all along the river who have been rushing into Cairo.

Both Adjutant General Dickson and Governor Dunne remained in their offices and were in constant communication with Mayor Parsons and Sheriff Frasier at Cairo and with Assistant Adjutant General Shand, who arrived at Shawneetown and assumed direction of the relief work at that place.

In a message received from Shand it is said conditions at Shawneetown are alarming and that a break in the levee is feared at any time. Many of the residents have moved to the hills back of the town, but a break in the levee would cause loss of life and property. General Shand talked from Evansville, Ind., all communication with Shawneetown having been cut off.

The levee at Cairo, for a distance of twenty miles, is said to be in a weakened condition and is likely to give way at any point.

PERU NEEDS RELIEF BADLY

Mayor Finds Conditions Worse Than Expected.

Peru, Ind., March 31.—While no additional reports of deaths were received here the general relief committee, headed by Mayor John Kreutzer, inspected the flooded district and found conditions much worse than had been expected.

"Money is needed most of all," according to Mayor Kreutzer, who gave out a statement in answer to numerous telegrams asking what outside help is needed by the flood sufferers.

"We found residents of the inundated section working to clean up their homes and adding to put the city in sanitary condition," he said. "These unfortunate people are going to be in need of help in readjusting their homes and I think contributions of money would be greatly appreciated by all."

The known dead at Peru number eight.

RAILWAY MAN DEAD.

Los Angeles, March 31.—George T. Nicholson of Chicago, vice president of the Santa Fe system, in charge of traffic, died at a local hospital.

INDIANA WAGING
WAR ON DISEASESanitary Experts Expect Much
Illness Following Floods.

HAD TO LIVE LIKE SHEEP

Scores of Central Indiana Persons in
All Walks of Life Have Been Huddled
Together in Small Halls and
Other Buildings for Days and a Serious
Pestilence Is Feared.

Indianapolis, March 31.—Central Indiana is summoning its medical forces to fight disease, which is following in the wake of the devastating flood which swept that section last week. Sanitary experts expect hundreds of cases of typhoid, diphtheria, pneumonia and measles to develop.

A member of the state board of health asserted that the flood's toll of sixty-one lives in this state probably will be exceeded. Scores of persons in all walks of life have been huddled in small halls and buildings for days. They have been forced to live like sheep and a pestilence is feared.

Thousands of persons will continue to be homeless until their residences have been cleaned of the filth left by the receding waters and fumigated. A majority of these refugees have no clothing except what they wore when the flood descended.

Under Seven Feet of Water.

Lawrenceburg, where the levee broke on Saturday, is under seven feet of water. In the Dearborn National and German American banks only the tops of the safety deposit vaults are visible. Water covers the first floors of the high school and courthouse, where 400 persons are marooned.

The whistle at the Lawrenceburg mills warned the residents of the town that the levee had broken. In a few minutes a wall of water thirty feet high swept through the town. Sixty houses near the break were crushed and carried away. That no lives were lost seems a miracle.

National guardsmen are in charge of the relief work at Logansport.

There are 3,800 homeless at Logansport and the military medical corps says that the danger of a pestilence is greater than at any other point in the state. The property damage is \$1,000,000 there and a call for more aid has been issued.

In response to an appeal from Mayor McDowell of Vincennes, Governor Madison ordered 200 tents and supplies sent to that city. Several hundred families living in the valley around Mount Carmel, Ill., near where the White and Wabash rivers meet, have been forced to flee to high ground, where they are without shelter. Relief will be sent immediately.

Another dispatch to the governor said 100 families are homeless and needed aid at Shoals, Ind. The river there exceeded former high water marks by four feet.

LIKES WAY BRYAN BEGINS

La Follette's Magazine Comments on
"Dollar Diplomacy."

Madison, Wis., March 31.—La Follette's Weekly discusses the subject of "Dollar Diplomacy" in the following editorial:

"The first important act of the department of state under Secretary Bryan is the rejection of the 'dollar diplomacy' policy of Taft and Knox. Humanity is to be placed higher than property in our international affairs. Patriotism is to be given precedence over profits. National honor is to count for more than trust aggrandizement."

"The petulant resignation of Assistant Secretary Huntington Wilson, who was Knox's right hand man in developing the department of state into a business agent for a certain powerful group of speculative bankers in New York, only serves to emphasize the need of the complete reversal of policy. There are other system 'plants' in this department. Hunt them down and out."

"Dollar diplomacy" forced the resignation of Ambassadors Straus and Hill, the article says.

Dayton Needs Motor Trucks.

Chicago, March 31.—Motor trucks and drivers are most needed in Dayton now, according to a telegram received here by Mayor Harrison from officials of the National Cash Register company. It reads: "Our crying need is motor trucks and drivers. Can use 200. Please send quick all possible. Wire all you can send."

GENERAL WOOD.

Says All Flood Points
Are Getting Needed Aid.

© 1911, by American Press Association.

ALL POINTS RECEIVING AID

Major General Wood Reports From
Flood District.

Washington, March 31.—"All places affected by the flood in such a way as to need help are receiving it and it is not believed that there is any suffering anywhere now from want of food or shelter," was the report to Adjutant General Wood, chief of staff, who, with Secretary of War Garrison, is in the heart of the flooded district directing relief operations. He added while loss of life had been very heavy it was not anything like the previous reports indicated.

"Do not send any more government supplies," said the report, "unless the department's representatives on the ground request it. Any supplies available should be held for possible needs further down the river. Major Nor-moyle has received the great bulk of the supplies sent to Columbus and is busily engaged in shipping them out to points where required."

DEAD AT COLUMBUS
REMAINS SIXTY-FOURList of Persons Missing Is
Becoming Smaller.

Columbus, O., March 31.—Reconstruction of the West Side of Columbus, where the flood of last Tuesday wrought the heaviest damage, will be begun in earnest by the undaunted citizens of that district with the assistance of more fortunate residents.

Twelve bodies were recovered from the debris, but many of them have been identified as persons previously reported dead, so that the Columbus death list still remains at sixty-four.

Many are reported to be missing, but the list gradually is growing smaller. Fifty-nine bodies have been recovered and taken to the central morgue. Confusion caused by caring for bodies at two or three different morgues at first caused a reported high death list, but now all bodies have been ordered taken to the Central morgue as soon as found.

Working day and night squads of men furnished by the city and by railroad companies have succeeded in patching up the big break in the levee which caused the disaster on the West Side. A second smaller break is being repaired.

Was a Nebraska Politician.

James A. Edgerton, who has been made purchasing agent of the post-office department, first came to the front in politics in 1896, when he was secretary of the Populist national committee. He was from Nebraska and a great admirer of William J. Bryan. Edgerton has always remained in close touch with politics. For years he has been a resident of New Jersey.

Newlands Will Be Busy.
Senator Newlands is the new chairman of the interstate commerce committee, and it is expected that he will be a very busy man with all matters that can be considered by that committee.

He has many ideas in regard to the manner in which transportation should be regulated and controlled, and it is believed that he will also bring forward some measure regulating the control of corporations under interstate commerce. Senator Newlands retired from the commerce committee, a very desirable place, in order to give more time to his new chairmanship.

Better Facilities.
Better facilities, more deliveries in business sections and the handling of mails so that a letter will go as quickly as an express package or anything sent over a mail route will do more to make the postoffice department popular than if it were made a money-making machine and returned a surplus each year rather than a deficit.

INHERITANCE TAX
MAY BE ENACTEDAdditional Levy Is Expected
In Tariff Law.

WOULD NOT HURT ANY ONE.

Senator Gore Explains Advantages and
Harmlessness of Inheritance Revenue—Wouldn't Bother the Dead, and
as Living Had Not Received Money
They Wouldn't Lose It.

By ARTHUR W. DUNN.

Washington, March 31.—[Special.]—Taxes on inheritances as well as on incomes will be made a part of the new tariff law if some of the progressive Democrats can have their way. The only reason why the inheritance tax is not considered sure is because some men in congress think that the states should not be deprived of this source of revenue. But, in view of the fact that it is intended to start the income tax on incomes of \$5,000 and tax only incomes over that amount, it is quite likely that an inheritance tax may also be added to the bill.

Senator Gore, a member of the finance committee and one who will have much to say about the new tariff bill, believes that the income tax should apply only to unearned incomes in the lower grades; that the incomes of the professional men and others who work for them should not be taxed unless the incomes are much higher than those ordinarily paid.

Can't Lose What You Don't Have.
Senator Gore gives as one reason for taxing inheritances that it does not take any money from any person.

"The money does not belong to the man until the inheritance is complete," he said. "It is not taken from the dead man, because he has gone, and it is not taken from his heirs, because they never had it."

"I recollect when I was first a candidate for the senate one of my friends remarked that if I were elected it would be a splendid triumph, while if I were not elected I would not lose anything, because I had nothing to lose. That is the way with an inheritance tax. The man can't lose it, because he never had it."

Due to the Typewriter.

Twenty years ago only those senators who were chairmen of committees had clerks the year around. The others, and a large majority, too, had session clerks, men who received \$6 a day while the senate was in session. Then there grew up a system of increasing the number of committees until every member of the majority was provided with a place which gave him a clerk.

Then followed the system which made clerks to senators annual employees permanently on the payroll. Soon followed the more advanced system by which each senator was given a clerk and a messenger and each chairman of a committee had a clerk, an assistant clerk and a messenger. That is why all the useless committees are maintained. It means more patronage.

Increased Correspondence.
Now it is asserted that much of this increased clerical force is due to the typewriter; that because more letters are written the senators have a larger correspondence and need more employees to take care of it. Perhaps there is something in that claim.

There is no doubt about the increased correspondence. Every man writes a dozen letters now to one written twenty years ago. For the most part the clerks and messengers of the different committees are kept busy while congress is in session. And some senators are obliged to hire extra help to take care of the work which piles up day after day. The people seem to have the letter writing habit, and whenever an opportunity offers they write to their senators.

Was a Nebraska Politician.
James A. Edgerton, who has been made purchasing agent of the post-office department, first came to the front in politics in 1896, when he was secretary of the Populist national committee. He was from Nebraska and a great admirer of William J. Bryan. Edgerton has always remained in close touch with politics. For years he has been a resident of New Jersey.

Newlands Will Be Busy.
Senator Newlands is the new chairman of the interstate commerce committee, and it is expected that he will be a very busy man with all matters that can be considered by that committee.

He has many ideas in regard to the manner in which transportation should be regulated and controlled, and it is believed that he will also bring forward some measure regulating the control of corporations under interstate commerce. Senator Newlands retired from the commerce committee, a very desirable place, in order to give more time to his new chairmanship.

Better Facilities.
Better facilities, more deliveries in business sections and the handling of mails so that a letter will go as quickly as an express package or anything sent over a mail route will do more to make the postoffice department popular than if it were made a money-making machine and returned a surplus each year rather than a deficit.

J. P. MORGAN.

Noted Financier Said
to Be Dying at Rome.

© 1912, by American Press Association.

J. P. MORGAN IS NEAR DEATH

American Financier in Critical Condition at Rome.

Rome, March 31.—J. Pierpont Morgan is in a most critical condition. This is the official announcement made by the attending physicians. For several days he has been unable to take any nourishment and his weakness has given rise to the gravest apprehensions.

Up to Saturday night Mr. Morgan's son-in-law, Herbert L. Satterlee, and the physicians made every effort to conceal Mr. Morgan's true condition. The bulletin issued, however, indicates that the worst is to be feared if a reaction does not speedily set in.

CINCINNATI POORER
PEOPLE SUFFERINGSome Houses Inundated and
Others Washed Away.

Cincinnati, March 31.—Two companies of the Ninth United States Infantry, stationed at Fort Thomas, Ky., are being held in readiness to march at an instant's notice to Covington, where Mayor George S. Phillips fears the city may be in need of military protection due to high water that virtually is surrounding the town.

When the river stage reached more than sixty-eight feet the lighting and electric and gas works were put out of commission and the city is in darkness.

No disorders have yet occurred, but it is feared by the mayor that with the city in almost total darkness looters will begin their work.

Conditions have practically remained unchanged. The poorer people are the greatest sufferers, as their homes have been completely inundated and many of the houses have been swept away.

The property loss on the Cincinnati water front will reach nearly \$2,000,000.

Relief measures are inadequate and so far there has been much suffering. The inundated district is being patrolled by an extra police force and also by officials of the city health department.

There has been but one life lost directly attributed to the high water. Of the few important towns in Kentucky opposite Cincinnati only one—Newport—has direct communication with this city.

OHIO RIVER IS RECEDING

Two Companies of Militia on Duty at
Parkersburg.

Parkersburg, W. Va., March 31.—The crest of the Ohio river flood reached here with a stage of 58.6 feet, six feet higher than the record of 1884. The river is receding slowly. Two companies of militia are guarding the town.

In Belpre, O., across the Ohio river from here, a large crack has appeared in a dam. Most of the Belpre residents have sought safety here.

Belleville, eighteen miles away, is practically wiped out and the people are camping on the hill above the town. It is reported that several lives have been lost at Belleville, but it is impossible to verify the reports.

Two lives is the toll of the flood waters in Parkersburg. The damage is foremost. Fully 5,000 persons are homeless here and at Belpre and Belleville.

ARMS SHIPPED OVER BORDER

Mexico Makes a Formal Protest to
America.

Mexico City, March 31.—The Mexican government has made a formal protest to the American government against the shipping of arms and ammunition from the United States to the rebels and has requested that greater vigilance be exercised in guarding the frontier. Mexican officials understand that numerous consignments of war material, including many machine guns, have been sent across the border, in some cases even at the regular ports of entry, and are now in the hands of the rebels.

DAYTON FACING
TRYING PROBLEM

MAY TEST MILK ORDINANCE

Minneapolis Case Going to Federal
Supreme Court.

Washington, March 31.—Attacks on the "stringent pure milk" regulations of several large cities are to be made before the supreme court of the United States.

An attempt will be made, shortly after the court reconvenes on April 7, to show that the Minneapolis ordinance requiring the "tuberculin test" of cows supplying the milk brought into the city is unconstitutional. On the same day the court is expected to announce whether it will review a case in the local courts, wherein it was held that milk containing more than a certain number of bacteria was forbidden the channels of interstate commerce by the federal pure food law.

The Minneapolis ordinance was upheld in the supreme court of Minnesota. There an attack was made upon the validity of the test for tuberculosis in cows as being arbitrary and not supported by medical science.

SECURES SUMMER RESIDENCE

President Obtains Home of Novelist
Winston Churchill.

Cornish, N. H., March 31.—President Woodrow Wilson has chosen the home of Winston Churchill, the novelist, to be his summer capital, according to a telegram received here from Mr. Churchill, who is now in Santa Barbara, Cal. The message was directed to E. F. Roberts, manager of the Churchill estate, and contained instructions for getting the place in readiness for the president's occupancy.

Harlakenden House, as the Churchill property is known, is a two-story brick structure situated on a hill three miles beyond Windsor, Vt. It contains a view of the Connecticut river valley and of the Green mountains.

Between 600 and 700 acres of rolling farm land and fragrant pine groves give the estate the seclusion the president desires.

DESPERADO KILLS CASHIER

Kansas Bank Robber Later Shot to
Death by Posse.

Barnes, Kan., March 31.—Robert I. Brown, cashier of the Barnes state bank, was shot and killed by a man who robbed the institution. Later a posse of citizens shot the robber to death as he was trying to escape from town with a bag of gold. Brown met death when, instead of obeying the order to throw up his hands, he grabbed a revolver and fired at the robber.

The robber could not be identified. He apparently was about thirty-five years old.

Brown was forty years old. He leaves a widow and three children.

Julius Caesar.

The almost unanimous verdict of ancient and modern times is to the effect that Julius Caesar was what Shakespeare calls him, "The foremost man of all this world." Never before or since has any one exhibited in so high a degree all the qualities of a born ruler of men. And never had any man a grander role to play. To preside over the most important crisis in the history of the human race was a task that none but the greatest of men could successfully perform.

Caesar swept one obstacle after another aside and stood at last where he meant to stand.—New York American.

Forty Thousand Refugees in Need
of Assistance.

REMOVING DEBRIS BEGINS

Fifteen Thousand Houses and Other
Structures, or What Remains of
Some of Them, Must Be Torn Down,
Telegraph and Telephone Linemen
Perform Brave and Untiring Service.

Dayton, O., March 31.—Here is the problem presented to Dayton, as summarized by George F. Burba, secretary to Governor Cox, who is representing the latter here:

Forty thousand persons must be fed, clothed and housed for a week more.

Twenty thousand persons must be cared for indefinitely. These are persons who lost their all when their household goods were swept away. They must be provided with a few necessary household articles, such as bedding, pots and pans, stoves and a few dollars. A half million dollars could be used in this way by the relief committee.

Fifteen thousand houses and other structures, or what remains of them, must be pulled down.

Thousands of tons of debris must be removed.

Following are some of the accomplishments since the flood broke over the city Tuesday morning.

The water works pumping station is in operation, but the distribution of water is greatly retarded by open pipes in wrecked houses. The pressure is feeble, but growing stronger as leaks are checked.

The main sanitary sewer is in operation, although many of the laterals leading from houses are clogged with mud or backed up water.

Linemen Prove Heroes.

No braver service have been performed than those by the telegraph and telephone linemen, who made possible the dissemination of news to hundreds of thousands of friends and relatives of Daytonians. They waded and swam in the icy floods and entered buildings unhesitatingly in pursuit of their duty. John P. Patterson, chairman of the general committee, found many operators who had not removed their shoes or clothing since last Tuesday.

There is enough food and clothing for present needs, but relief will be required on a diminishing scale for another month.

Chairman Patterson announced that W. F. Bippus will act as treasurer for all contributions and will make a strict accounting to all contributors.

By order of Governor Cox the reign of martial law over Dayton was extended to take in the whole county.

The extension of the area under martial law developed from the action taken by local dealers whose places are closed. They complained that saloons in the outskirts were sending whisky into the city and that considerable drunkenness has been observed. Adjutant General Wood reported the situation to the governor and his action was prompt and decisive.

Street Cars Unable to Run.

The telephone system is still a wreck, which is a great handicap in administering the affairs of the city. Street cars are unable to run and automobiles are unobtainable for other than relief work, except by bringing them here from Cincinnati at \$120 a day.

Hundreds of persons suffering from diphther

LEVEE MAY HAVE
GONE AT CAIROIllinois Town Is in
Grave Peril.SHAWNEETOWN IS ALSO
IN IMMINENT DANGERGovernor Sends Troops to Cairo
by Special Train.

Springfield, Ill., March 31.—Governor Dunne received word that the wire out of Cairo was severed, cutting off telephonic communication. Desperate efforts are being made to establish telegraphic communication. The governor fears that the breaking of communication means the levee has collapsed.

The governor refuses to leave the office of the adjutant general. He is handling messages from all quarters and is personally directing the troops and the rushing of supplies.

Springfield, Ill., March 31.—Illinois threatens to become the center of the flood distress. Startling messages have been received by Governor Dunne and Adjutant Dickson indicating that Shawneetown and Cairo are in immediate danger of being washed off the map. Other towns are in distress.

Governor Dunne has sent a rush order for 1,000 troops to proceed by special train to Cairo. Messages received by the governor from Sheriff Frasier and Mayor Parsons of Cairo describe conditions as extremely alarming. Fears were expressed that the levee might break at any minute with an inevitable heavy loss of life and an immense property damage.

The entire Seventh regiment, I. N. G., under command of Colonel Daniel Moriarty of Chicago, was ordered out by Governor Dunne.

Previous to taking this action the governor had already ordered the following five down state companies to Cairo: K of Cairo, L of Olney, B of Newton, F of Mount Vernon and C of Sullivan, all of the Fourth regiment. Lieutenant C. E. Ryan of Effingham was detailed by Adjutant General Dickson to assume charge of the troops.

Refugees Flock Into Cairo.

In talking over the telephone with Governor Dunne, Mayor Parsons stated that, despite flood warnings advising residents to move to higher ground, the number of those who have taken this advice has been offset several times over by thousands of refugees from all along the river who have been rushing into Cairo.

Both Adjutant General Dickson and Governor Dunne remained in their offices and were in constant communication with Mayor Parsons and Sheriff Frasier at Cairo and with Assistant Adjutant General Shand, who arrived at Shawneetown and assumed direction of the relief work at that place.

In a message received from Shand it is said conditions at Shawneetown are alarming and that a break in the levee is feared at any time. Many of the residents have moved to the hills back of the town, but a break in the levee would cause loss of life and property. General Shand talked from Evansville, Ind., all communication with Shawneetown having been cut off.

The levee at Cairo, for a distance of twenty miles, is said to be in a weakened condition and is likely to give way at any point.

PERU NEEDS RELIEF BADLY

Mayor Finds Conditions Worse Than Expected.

Peru, Ind., March 31.—While no additional reports of deaths were received here the general relief committee, headed by Mayor John Kreutzer, inspected the flooded district and found conditions much worse than had been expected.

"Money is needed most of all," according to Mayor Kreutzer, who gave out a statement in answer to numerous telegrams asking what outside help is needed by the flood sufferers.

"We found residents of the inundated section working to clean up their homes and adding to put the city in sanitary condition," he said. "These unfortunate people are going to be in need of help in readjusting their homes and I think contributions of money would be greatly appreciated by all."

The known dead at Peru number eight.

RAILWAY MAN DEAD.

Los Angeles, March 31.—George T. Nicholson of Chicago, vice president of the Santa Fe system, in charge of traffic, died at a local hospital.

INDIANA WAGING
WAR ON DISEASESanitary Experts Expect Much
Illness Following Floods.

HAD TO LIVE LIKE SHEEP

Scores of Central Indiana Persons in
All Walks of Life Have Been Huddled
Together in Small Halls and
Other Buildings for Days and a Serious
Pestilence Is Feared.

Indianapolis, March 31.—Central Indiana is summoning its medical forces to fight disease, which is following in the wake of the devastating flood which swept that section last week. Sanitary experts expect hundreds of cases of typhoid, diphtheria, pneumonia and measles to develop.

A member of the state board of health asserted that the flood's toll of sixty-one lives in this state probably will be exceeded. Scores of persons in all walks of life have been huddled in small halls and buildings for days. They have been forced to live like sheep and a pestilence is feared.

Thousands of persons will continue to be homeless until their residences have been cleaned of the filth left by the receding waters and fumigated. A majority of these refugees have no clothing except what they wore when the flood descended.

While the residents of the river towns in the center of the state are facing a problem of sanitation the cities along the Ohio river are preparing for the worst flood of their existence. Already thousands of persons have been driven from the bottom lands and the property damage runs into the millions. The water still is rising and the crest of the flood is four days away. Railroad communication with these cities has been cut off from the north.

Under Seven Feet of Water.

Lawrenceburg, where the levee broke on Saturday, is under seven feet of water. In the Dearborn National and German American banks only the tops of the safety deposit vaults are visible. Water covers the first floors of the high school and courthouse, where 400 persons are marooned.

The whistle at the Lawrenceburg mills warned the residents of the town that the levee had broken. In a few minutes a wall of water thirty feet high swept through the town. Sixty houses near the break were crushed and carried away. That no lives were lost seems a miracle.

National guardsmen are in charge of the relief work at Logansport.

There are 3,800 homeless at Logansport and the military medical corps says that the danger of a pestilence is greater than at any other point in the state. The property damage is \$1,000,000 there and a call for more aid has been issued.

In response to an appeal from Mayor McDowell of Vincennes, Governor Ralston ordered 200 tents and supplies sent to that city. Several hundred families living in the valley around Mount Carmel, Ill., near where the White and Wabash rivers meet, have been forced to flee to high ground, where they are without shelter. Relief will be sent immediately.

Another dispatch to the governor said 100 families are homeless and needed aid at Shoals, Ind. The river there exceeded former high water marks by four feet.

LIKES WAY BRYAN BEGINS

La Follette's Magazine Comments on
"Dollar Diplomacy."

Madison, Wis., March 31.—La Follette's Weekly discusses the subject of "Dollar Diplomacy" in the following editorial:

"The first important act of the department of state under Secretary Bryan is the rejection of the 'dollar diplomacy' policy of Taft and Knox. Humanity is to be placed higher than property in our international affairs. Patriotism is to be given precedence over profits. National honor is to count for more than trust and grandeur."

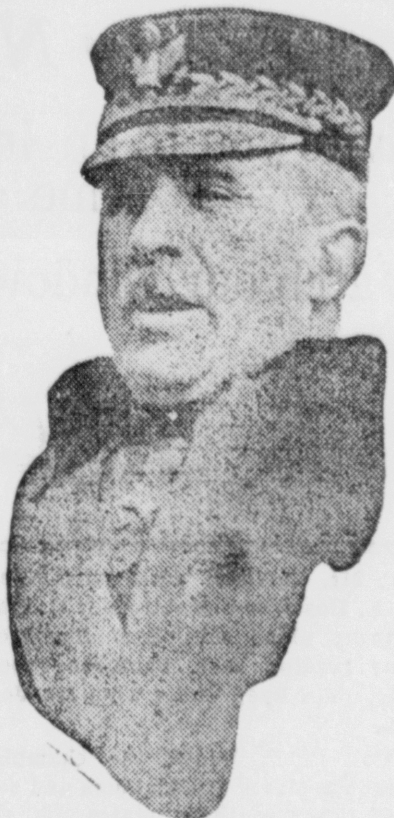

"The petulant resignation of Assistant Secretary Huntington Wilson, who was Knox's right hand man in developing the department of state into a business agent for a certain powerful group of speculative bankers in New York, only serves to emphasize the need of the complete reversal of policy. There are other system 'plants' in this department. Hunt them down and out."

"Dollar diplomacy" forced the resignation of Ambassadors Straus and Hill, the article says.

Dayton Needs Motor Trucks.

Chicago, March 31.—Motor trucks and drivers are most needed in Dayton now, according to a telegram received here by Mayor Harrison from officials of the National Cash Register company. It reads: "Our crying need is motor trucks and drivers. Can use 200. Please send quick all possible. Wire all you can send."

GENERAL WOOD.

Says All Flood Points
Are Getting Needed Aid.

© 1913, by American Press Association.

ALL POINTS RECEIVING AID

Major General Wood Reports From
Flood District.

Washington, March 31.—"All places affected by the flood in such a way as to need help are receiving it and it is not believed that there is any suffering anywhere now from want of food or shelter," was the report to Adjutant General Wood, chief of staff, who, with Secretary of War Garrison, is in the heart of the flooded district directing relief operations. He added while loss of life had been very heavy it was not anything like the previous reports indicated.

"Do not send any more government supplies," said the report, "unless the department's representatives on the ground request it. Any supplies available should be held for possible needs further down the river. Major Normoyle has received the great bulk of the supplies sent to Columbus and is busily engaged in shipping them out to points where required."

DEAD AT COLUMBUS
REMAINS SIXTY-FOURList of Persons Missing Is
Becoming Smaller.

Columbus, O., March 31.—Reconstruction of the West Side of Columbus, where the flood of last Tuesday wrought the heaviest damage, will be begun in earnest by the undaunted citizens of that district with the assistance of more fortunate residents.

Twelve bodies were recovered from the debris, but many of them have been identified as persons previously reported dead, so that the Columbus death list still remains at sixty-four.

Many are reported to be missing, but the list gradually is growing smaller. Fifty-nine bodies have been recovered and taken to the central morgue. Confusion caused by caring for bodies at two or three different morgues at first caused a reported high death list, but now all bodies have been ordered taken to the Central morgue as soon as found.

Working day and night squads of men furnished by the city and by railroad companies have succeeded in patching up the big break in the levee which caused the disaster on the West Side. A second smaller break is being repaired.

CURIOUS VISIT OMAHA.

Omaha, March 31.—Omaha was the mecca for about 100,000 sightseers who came in from the surrounding country to view the district devastated by last Sunday night's tornado. All railroads entering the city ran special trains with excursion rates for the benefit of the visitors. Brownclad militiamen were on guard at all intersections of streets in the tornado zone, keeping the crowds back and in check and constantly on the move.

HAMILTON'S DEATH LIST 80

Secretary Garrison Finds Nothing
Lacking for Present Emergency.

Hamilton, O., March 31.—Secretary Garrison of the war department, who is touring the flood district as the personal representative of President Wilson, visited Hamilton, coming over from Cincinnati by automobile. So impressed was the secretary of war with the manner in which the situation here is being handled by the citizens and Ohio national guard that he announced he would telegraph President Wilson that nothing needed for the present emergency is lacking.

The secretary was told that the death list here will not number more than eighty, with the property loss estimated at \$4,000,000.

INHERITANCE TAX
MAY BE ENACTEDAdditional Levy Is Expected
In Tariff Law.

WOULD NOT HURT ANY ONE.

Senator Gore Explains Advantages and Harmlessness of Inheritance Revenue—Wouldn't Bother the Dead, and as Living Had Not Received Money They Wouldn't Lose It.

By ARTHUR W. DUNN.

Washington, March 31.—[Special.]—Taxes on inheritances as well as on incomes will be made a part of the new tariff law if some of the progressive Democrats can have their way. The only reason why the inheritance tax is not considered sure is because some men in congress think that the states should not be deprived of this source of revenue. But, in view of the fact that it is intended to start the income tax upon incomes of \$5,000 and tax only incomes over that amount, it is quite likely that an inheritance tax may also be added to the bill.

Senator Gore, a member of the finance committee and one who will have much to say about the new tariff bill, believes that the income tax should apply only to unearned incomes in the lower grades; that the incomes of the professional men and others who work for them should not be taxed unless the incomes are much higher than those ordinarily paid.

Can't Lose What You Don't Have. Senator Gore gives as one reason for taxing inheritances that it does not take any money from any person.

"The money does not belong to the man until the inheritance is complete," he said. "It is not taken from the dead man, because he has gone, and it is not taken from his heirs, because they never had it."

"I recollect when I was first a candidate for the senate one of my friends remarked that if I were elected it would be a splendid triumph, while if I were not elected I would not lose anything, because I had nothing to lose. That is the way with an inheritance tax. The man can't lose it, because he never had it."

Due to the Typewriter.

Twenty years ago only those senators who were chairmen of committees had clerks the year around. The others, and a large majority, too, had session clerks, men who received \$6 a day while the senate was in session. Then there grew up a system of increasing the number of committees until every member of the majority was provided with a place which gave him a clerk.

Then followed the system which made the clerks to senators annual employees permanently on the payroll. Soon followed the more advanced system by which each senator was given a clerk and a messenger and each chairman of a committee had a clerk, an assistant clerk and a messenger. That is why all the useless committees are maintained. It means more patronage.

Increased Correspondence. Now it is asserted that much of this increased clerical force is due to the typewriter; that because more letters are written the senators have a larger correspondence and need more employees to take care of it. Perhaps there is something in that claim.

There is no doubt about the increased correspondence. Every man writes a dozen letters now to one written twenty years ago. For the most part the clerks and messengers of the different committees are kept busy while congress is in session. And some senators are obliged to hire extra help to take care of the work which piles up day after day. The people seem to have the letter writing habit, and whenever an opportunity offers they write to their senators.

Was a Nebraska Politician. James A. Edgerton, who has been made purchasing agent of the post-office department, first came to the front in politics in 1896, when he was secretary of the Populist national committee. He was from Nebraska and a great admirer of William J. Bryan. Edgerton has always remained in close touch with politics. For years he has been a resident of New Jersey.

Newlands Will Be Busy.

Senator Newlands is the new chairman of the interstate commerce committee, and it is expected that he will be a very busy man with all matters that can be considered by that committee.

He has many ideas in regard to the manner in which transportation should be regulated and controlled, and it is believed that he will also bring forward some measure regulating the control of corporations under interstate commerce. Senator Newlands retired from the commerce committee, a very desirable place, in order to give more time to his new chairmanship.

Better Facilities. Better facilities, more deliveries in business sections and the handling of mails so that a letter will go as quickly as an express package or anything sent over a mail route will do more to make the postoffice department popular than if it were made a money-making machine and returned a surplus each year rather than a deficit.

Conceit. She—Marry you! Do you think I'm crazy? He—No. But I shall if you refuse.—Boston Transcript.

J. P. MORGAN.

Noted Financier Said
to Be Dying at Rome.

© 1913, by American Press Association.

J. P. MORGAN IS NEAR DEATH

American Financier in Critical Condition at Rome.

Rome, March 31.—J. Pierpont Morgan is in a most critical condition. This is the official announcement made by the attending physicians. For several days he has been unable to take any nourishment and his weakness has given rise to the gravest apprehensions.

Up to Saturday night Mr. Morgan's son-in-law, Herbert L. Satterlee, and the physicians made every effort to conceal Mr. Morgan's true condition. The bulletin issued, however, indicates that the worst is to be feared if a reaction does not speedily set in.

CINCINNATI POORER
PEOPLE SUFFERINGSome Houses Inundated and
Others Washed Away.

Cincinnati, March 31.—Two companies of the Ninth United States infantry, stationed at Fort Thomas, Ky., are being held in readiness to march at an instant's notice to Covington, where Mayor George S. Phillips fears the city may be in need of military protection due to high water that virtually is surrounding the town.

When the river stage reached more than sixty-eight feet the lighting and electric and gas works were put out of commission and the city is in darkness.

No disorders have yet occurred, but it is feared by the mayor that with the city in almost total darkness looters will begin their work.

Conditions have practically remained unchanged. The poorer people are the greatest sufferers, as their homes have been completely inundated and many of the houses have been swept away.

The property loss on the Cincinnati water front will reach nearly \$2,000,000.

Relief measures are inadequate and so far there has been much suffering. The inundated district is being patrolled by an extra police force and also by officials of the city health department.

There has been but one life lost directly attributed to the high water.

Of the few important towns in Kentucky opposite Cincinnati only one—Newport—has direct communication with this city.

OHIO RIVER IS RECEDING

Two Companies of Militia on Duty at Parkersburg.

Parkersburg, W. Va., March 31.—The crest of the Ohio river flood reached here with a stage of 58.6 feet, six feet higher than the record of 1884. The river is receding slowly. Two companies of militia are guarding the town.

In Belpre, O., across the Ohio river from here, a large crack has appeared in a dam. Most of the Belpre residents have sought safety here.

Belleville, eighteen miles away, is practically wiped out and the people are camping on the hill above the town. It is reported that several lives have been lost at Belleville, but it is impossible to verify the reports.

Two lives is the toll of the flood waters in Parkersburg. The damage is foretold. Fully 5,000 persons are homeless here and at Belpre and Belleville.

ARMS SHIPPED OVER BORDER

Mexico Makes a Formal Protest to
America.

Mexico City, March 31.—The Mexican government has made a formal protest to the American government against the shipping of arms and ammunition from the United States to the rebels and has requested that greater vigilance be exercised in guarding the frontier. Mexican officials understand that numerous consignments of war material, including many machine guns, have been sent across the border, in some cases even at the regular ports of entry, and are now in the hands of the rebels.

DAYTON FACING
TRYING PROBLEM

MAY TEST MILK ORDINANCE

Minneapolis Case Going to Federal
Supreme Court.

Washington, March 31.—Attacks on the "stringent pure milk" regulations of several large cities are to be made before the supreme court of the United States.

An attempt will be made, shortly after the court reconvenes on April 7, to show that the Minneapolis ordinance requiring the "tuberculin test" of cows supplying the milk brought into the city is unconstitutional. On the same day the court is expected to announce whether it will review a case in the local courts, wherein it was held that milk containing more than a certain number of bacteria was forbidden the channels of interstate commerce by the federal pure food law.

The Minneapolis ordinance was upheld in the supreme court of Minnesota. There an attack was made upon the validity of the test for tuberculosis in cows as being arbitrary and not supported by medical science.

SECURES SUMMER RESIDENCE

President Obtains Home of Novelist
Winston Churchill.

Cornish, N. H., March 31.—President Woodrow Wilson has chosen the home of Winston Churchill, the novelist, to be his summer capital, according to a telegram received here from Mr. Churchill, who is now in Santa Barbara, Cal. The message was directed to E. F. Roberts, manager of the Churchill estate, and contained instructions for getting the place in readiness for the president's occupancy.

Harlakenden House, as the Churchill property is known, is a two-story brick structure situated on a hill three miles beyond Windsor, Vt. It contains a view of the Connecticut river valley and of the Green mountains.

Between 600 and 700 acres of rolling farm land and fragrant pine groves give the estate the seclusion the president desires.

DESPERADO KILLS CASHIER

Kansas Bank Robber Later Shot to
Death by posse.

Barnes, Kan., March 31.—Robert I. Brown, cashier of the Barnes state bank, was shot and killed by a man who robbed the institution. Later a posse of citizens shot the robber to death as he was trying to escape from town with a bag of gold. Brown met death when, instead of obeying the order to throw up his hands, he grabbed a revolver and fired at the robber.

The robber could not be identified. He apparently was about thirty-five years old.

Brown was forty years old. He leaves a widow and three children.

Julius Caesar.

The almost unanimous verdict of ancient and modern times is to the effect that Julius Caesar was what Shakespeare calls him, "The foremost man of all this world." Never before or since has any one exhibited in so high a degree all the qualities of a born ruler of men. And never had any man a grander role to play. To preside over the most important crisis in the history of the most important branch of the human race was a task that none but the greatest of men could successfully perform. Caesar swept one obstacle after another aside and stood at last where he meant to stand.—New York American.

GRAIN AND PROVISION PRICES

Duluth Wheat and Flax.

Duluth, March 31.—Wheat—To arrive on track—No. 1 hard, 85¢; 85½¢; May, 91¢; July, 82¢. Flax—On track, \$1.23½; to arrive, \$1.23½.

Forty Thousand Refugees in Need
of Assistance.

REMOVING DEBRIS BEGINS

Fifteen Thousand Houses and Other Structures, or What Remains of Some of Them, Must Be Torn Down, Telegraph and Telephone Linemen Perform Brave and Untiring Service.

Dayton, O., March 31.—Here is the problem presented to Dayton, as summarized by George F. Burba, secretary to Governor Cox, who is representing the latter here:

Forty thousand persons must be fed, clothed and housed for a week more. Twenty thousand persons must be cared for indefinitely. These are persons who lost their all when their household goods were swept away. They must be provided with a few necessary household articles, such as bedding, pots and pans, stoves and a few dollars. A half million dollars could be used in this way by the relief committee.

Fifteen thousand houses and other structures, or what remains of them, must be pulled down.

Thousands of tons of debris must be removed.

Following are some of the accomplishments since the flood broke over the city Tuesday morning.

The water works pumping station is in operation, but the distribution of water is greatly retarded by open pipes in wrecked houses. The pressure is feeble, but growing stronger as leaks are checked.

The main sanitary sewer is in operation, although many of the laterals leading from houses are clogged with mud or backed up water.

Linemen Prove Heroes.

No braver services have been performed than those by the telegraph and telephone linemen, who made possible the dissemination of news to hundreds of thousands of friends and relatives of Daytonians. They waded and swam in the icy floods and entered buildings unhesitatingly in pursuit of their duty. John P. Patterson, chairman of the general committee, found many operators who had not removed their shoes or clothing since last Tuesday.

There is enough food and clothing for present needs, but relief will be required on a diminishing scale for another month.

Chairman Patterson announced that W. F. Bippus will act as treasurer for all contributions and will make a strict accounting to all contributors. By order of Governor Cox the reign of martial law over Dayton was extended to take in the whole county.

The extension of the area under martial law developed from the action taken by local dealers whose places are closed. They complained that saloons in the outskirts were sending whisky into the city and that considerable drunkenness has been observed. Adjutant General Wood reported the situation to the governor and his action was prompt and decisive.

Street Cars Unable to Run.

The telephone system is still a wreck, which is a great handicap in administering the affairs of the city. Street cars are unable to run and automobiles are unobtainable for other than relief work, except by bringing them here from Cincinnati at \$120 a day.

Hundreds of persons suffering from diphtheria are at the Miami Valley hospital. Seven of them were caught in a house with a person who had recently become ill with the disease. Four persons hemmed in with one who had measles are suffering with that disease.

Eight persons whose minds have temporarily become affected, because of hardships suffered in the flood, are being cared for at a hospital.

With warmer weather the greatest problem was the removal of the carcasses of dead horses. Every available automobile truck and all the horse-drawn drays were impressed by the sanitary officials and hundreds of men are engaged removing the carcasses to the different incinerating plants and to vacant plots on the outskirts of the city where they are being burned.

Gives Street Car Men Raise.

Chicago, March 31.—The traction arbitration board made public its report of its investigation into the controversy between the street car lines and their employees and awarded the employees an increase in pay from 30 to 32 cents an hour as the maximum compensation.

TURKS KILL 1,000 BULGARS

Find 400 Rifles and Entrenchment
Tools Near Blyuk Chkmedye.

Constantinople, March 31.—The Bulgarians left 1,000 dead on the field after the engagement west of Blyuk Chkmedye, according to an official report. The Turks also found 400 rifles and large quantities of entrenchment tools. Since this engagement all has been quiet along the Tchatalja lines, as well as at Bulair.

Temperature record taken at Gull
lake dam, by caretaker, Arthur L.
Kempel.

March 29, Maximum 50 above,
minimum 33 above.

March 30, Maximum 49 above,
minimum 33 above. Rainfall .10
inches.

Vote yes on the amendment pre-
sented by the charter commission.

The governor has signed the bill
divorcing the saloon from the free
lunch much to the regret of the pro-
fessional hobo fraternity.

Don't forget that tomorrow is elec-
tion day and that it is your duty as
a citizen to go to the polls and regis-
ter your vote for good government. If
you do not vote you have no right to
criticize the outcome no matter what
it may be.

Stillwater, according to the Gaz-
ette, should be given the sixth nor-
mal school without further wrang-
ling by the legislature. It is some-
what of a question whether the state
really needs a sixth normal school,
and it is a cinch that the need is not
half as great as the yearning of the
cities that claim to be on eligible list.

Some mathematician has figured out
that the amount of matches burned
in a day would equal two car loads of
the best timber obtainable, weigh
50,000 pounds and that 25 tall trees
have to be cut to produce the lumber
from which they are made. When
that much lumber is used daily for
matches is it any wonder that the
timber of the country needs conserv-
ing if future generations are to get
any chance at it.

If more attention was paid to the
selection of city officers and members
of the school boards in different parts
of the state there would be less cause
for complaint. It is the man who
stays at home and who does not vote
at all who hawks the loudest after
the matter is over. Brainerd elects
a complete set of city officials tomor-
row, a mayor, ten councilmen, etc.,
and if you have any interest in the

administration of the city affairs go
to the polls and exercise your right.

It is really too bad that the so-
cialist organ is to be disappointed in
its prediction regarding late litera-
ture—that feature has been left en-
tirely to the opposition. The people
of Brainerd should be interested in
the election of a mayor and a city
council that will reflect the best in-
terests of the community from a busi-
ness standpoint, and we believe they
will do so. There is no occasion for
"dirty politics," the people will decide
tomorrow whether they wish socialist
rule or not, it is a plain, open ques-
tion and we live in a free country
where every one can and should exer-
cise his right of choice.

The Last Blockhouse

(In Two Parts)

TUESDAY, APRIL 1st, WEDNESDAY, APRIL 2nd

The spirit of daring and fortitude which settled our western
frontier is vividly portrayed in this spectacular production, based
upon historical occurrences. The thrilling drama presents a series
of tense situations.

Produced amidst the grandeur of the Verdugo Canyon, Califor-
nia. An especially augmented company supports the popular Kalem
players.

THE WEATHER
Temperature record taken at Gull lake dam, by caretaker, Arthur L. Campbell.
March 29, Maximum 50 above, minimum 33 above.
March 30, Maximum 49 above, minimum 33 above. Rainfall .10 inches.
Vote yes on the amendment presented by the charter commission.
The governor has signed the bill divorcing the saloon from the free lunch much to the regret of the professional hobo fraternity.
Don't forget that tomorrow is election day and that it is your duty as a citizen to go to the polls and register your vote for good government. If you do not vote you have no right to criticize the outcome no matter what it may be.
Stillwater, according to the Gazette, should be given the sixth normal school without further wrangling by the legislature. It is somewhat of a question whether the state really needs a sixth normal school, and it is a clinch that the need is not half as great as the yearning of the cities that claim to be on eligible list.
Some mathematician has figured out that the amount of matches burned in a day would equal two car loads of the best timber obtainable, weigh 50,000 pounds and that 25 tall trees have to be cut to produce the lumber from which they are made. When that much lumber is used daily for matches is it any wonder that the timber of the country needs conserving if future generations are to get any chance at it.
If more attention was paid to the selection of city officers and members of the school boards in different parts of the state there would be less cause for complaint. It is the man who stays at home and who does not vote at all who howls the loudest after the matter is over. Brainerd elects a complete set of city officials tomorrow, a mayor, ten councilmen, etc., and if you have any interest in the

administration of the city affairs go to the polls and exercise your right.
It is really too bad that the socialist organ is to be disappointed in its prediction regarding late literature—that feature has been left entirely to the opposition. The people of Brainerd should be interested in the election of a mayor and a city council that will reflect the best interests of the community from a business standpoint, and we believe they will do so. There is no occasion for "dirty politics," the people will decide tomorrow whether they wish socialist rule or not, it is a plain, open question and we live in a free country where every one can and should exercise his right of choice.

TO FORM FARMERS PRODUCE COMPANY

Farmers Union Takes This Action at the Saturday Afternoon Meeting at Commercial Club

IS CAPITALIZED AT \$10,000

Many Subscribed For Shares—Meeting Addressed by Two Experts From Agricultural College

The Farmers Union of the county met Saturday afternoon at the Commercial club rooms. It was voted to incorporate under the name of the Farmers Produce Co. and to make of the corporation a cooperative organization capitalized at \$15,000, the shares being \$10 each and the total liability of the corporation not to exceed \$5,000. Considerable stock was subscribed for at the meeting.

Another meeting has been called for in two weeks, being the afternoon of Saturday, April 12.

W. A. McKerrow and J. E. Neill of the agricultural extension and farmers' institutes of the university of Minnesota addressed the gathering. Mr. McKerrow spoke on dairying and the proper selection of cows. Mr. Neill spoke on corn testing and the proper methods for securing seed, corn guaranteeing the biggest crop. Both lectures were excellent and proved of great benefit to the many farmers who had the good fortune to hear the speakers.

JOHN CARLSON & SON

Harry Carlson is Taken Into Partnership With His Father, John Carlson

The new firm of John Carlson & Son has been formed and includes John Carlson, the well known clothier, and his son, Harry Carlson, aged 23. Young Mr. Carlson has clerked nine years in the store of his father and has gained an intimate acquaintance with the clothing and shoe business. He was born and raised in Brainerd, attended school here and is a young man who has made good as a business man.

Friends are assured that the new firm will be successful and are congratulating Harry Carlson on his good fortune.

LARGE AUDIENCE SATURDAY

The Popularity of "The Princess Bonnie" Further Evidenced by the Second Large House

Of all the amateur productions ever seen in Brainerd, the "Princess Bonnie" excelled them all and this was evidenced Saturday evening when the second performance of the high school glee club attracted an attendance which again filled every seat in the house and almost all the boxes.

The production Saturday night was but a repetition of the success scored Friday evening. Some of the principals received big bouquets of flowers and the boys and girls in the cast and chorus generously remembered Mrs. Prescott, who faithfully taught and drilled them and brought them to the peak of perfection, by presenting her with a huge bouquet of carnations and other flowers.

So great was the drawing power of the opera that many Friday night attendants saw the opera a second time on Saturday evening. Great credit is due Mrs. Prescott. It shows clearly what she can do with boys and girls from the Brainerd school and also reveals the success attained by a performance given entirely by Brainerd home talent.

PROCLAMATION

A general City election being held in the city of Brainerd on the 1st day of April, 1913, notice is hereby given that the law in relation to the sale and use of intoxicating liquors within the city of Brainerd must be complied with.

March 1st, 1913.
H. P. DUNN,
Mayor.

You have got to clean and clear the bowels thoroughly to have good health after the winter's indoor life; you would do so now if you could see them as you do your face or hands. Holister's Rocky Mountain Tea cleans and clears as nothing else. Start to-night. H. P. Dunn—Advt.

FOR RELIEF OF THE FLOOD SUFFERERS

Donations to date:

A. O. U. W. lodge No. 47 ----- \$25.00
B. A. Y. Homestead No. 602 -- 10.00
Childrens Hour ----- 3.00
Judge G. W. Holland ----- 25.00
Tonight the Empress theater presents its Sunday program of pictures and the net receipts realized will be contributed for the aid of the flood sufferers and the amount transmitted to the proper authorities by the Dispatch.

The Empress bill embraces "Art and Honor," a moving picture story of a rich planter's wife who falls in love with the artist painting her picture. The Indian picture is full of stirring scenes and is entitled the "Peace Council." Of interest is the "Collector of Pearls" and the latest acquisition in the line of pearls raises the ire of the collector's wife. Al. Mraz is heard in the latest song successes. Be sure and attend the Empress tonight.

The Grand theater has also entered the lists to aid the flood sufferers. On next Monday evening, April 7, the Grand theater will give the net receipts of its performances for the benefit of the stricken people. The Grand is to be commended for its enterprise and the desire it has shown to relieve distressed humanity.

The Childrens' Hour has just sent in a check for \$3 and the Dispatch is glad to transmit the donation.

Judge G. W. Holland, with the promptness and generosity which stamps him as one of Brainerd's public spirited citizens, this afternoon contributed his check for \$25 for the relief of the flood sufferers.

RAILROAD NOTES

The Northern Pacific will have a busy time on the Jamestown division this summer. The Jamestown yards, which were so badly crowded with grain shipments last fall from the main line and three branches, will be enlarged at least 25 per cent. The 90-pound steel rails between Jamestown and Mandan are to be replaced with 100-pound; 70-pound rail are to be laid on the branch between Jamestown and Oakes, and at least a dozen work trains will be operated out of Jamestown all summer. Work is to be started early next month.

The Northern Pacific has created two freight yards acting as buffers or branch terminals to relieve the congestion at the Twin Cities and Twin Ports. At St. Paul and Minneapolis this will be White Bear. At Duluth and Superior it will be Carlton.

Work being done at Aitkin is evidence that the Northern Pacific is preparing for the ore hauling season.

The Northern Pacific ore docks and the Soo docks handling Cuyuna ore being at Superior the 60 cent rate established by the Soo and acquiesced in by the Northern Pacific will not be bothered by any Cashman distance tariff law, as it is an interstate haul.

3 FEET OF BOWELS REMOVED

Ed. Lehrke of Ironton Operated on at Northwestern Hospital for Strangulated Hernia

Ed. Lehrke, of Ironton, has had removed over three feet of his intestines, or to be more accurate 39 inches. Suffering with strangulated hernia, the restaurant man was brought from the mining town to the Northwestern hospital and was in such serious condition that he was operated on the same night he entered the institution. Next morning another operation was performed.

Within the ten weeks and two days he was at the hospital two more operations were performed. His life was saved and he was entirely cured. The case is unique in surgical annals and the cure redounds to the credit of the hospital.

LISTEN, FELLERS!

Spring is Here and the Baseball Season Will Soon be On

The Dispatch will as usual devote space to amateur baseball ranging from the kid teams to the big fellows, and we want you to send in your stuff. The Dispatch is the only paper giving publicity to the future big leaguers and efforts will be made to make the sporting news better than ever this season. Write short accounts of the games. Write legibly and only on one side of the paper.

At a meeting held at the South Side club yesterday the "Brainerd Speedwells" elected the following officers: Manager George Fricker, treasurer-captain John Cudahy, jr., secretary Frank Butke. The Speedwells are a live baseball organization and issue a challenge to any 18 year old team in Brainerd or vicinity.

The Eagle lodge is organizing a baseball team.

The regular city team is being organized. Tom Templeton, captain, recently returned from Hot Springs, Ark.

Reports from outside towns indicate that sentiment for a Central Minnesota baseball league is dead and that each former league team will have to get up a series of its own games.

DEVELOPMENTS OF WEEK ON RANGE

Activity of Brainerd-Cuyuna Mining Co.—The Longyear Drills Near Brainerd

20 DRILLS IN AITKIN COUNTY

Two Options For Mining Leases Filed—Stowell Exploration Co's. Four Drills

Additional pumps have been placed at the Barrows mine of the Virginia Ore Mining company at Barrows on the south range and the water will soon be out of the shaft and mining will be resumed.

At the Adams mine of Cuyler Adams and associates at Oreland good progress is being made in sinking by Contractor Buzzo of Eveleth. The Oreland townsite company plans on erecting 10 additional houses.

The Brainerd-Cuyuna Mining company which has blocked out several million tons of ore on the south side of Brainerd plans to sink a shaft this spring. This lies in the same trend of ore with the ore found in the lands of Fritz Koop, the Baker Mining company, Joseph Rosko, Sr., Henry I. Cohen and the land of Judge G. W. Holland to the east, all being Brainerd men or companies and including also the lands of Charles Nelmeyer of Duluth and other interests. It is expected to get the Soo to tap these deposits.

Two drills of the E. J. Longyear company of Minneapolis, are working in section 13, township 45, range 30 and two drills in section 31, township 47, range 28 south of Cuyuna.

The Vermes-Cuyuna Mining & Development company has struck ore in its fourth hole, being good manganese. The Helmer Exploration company drilling it says it is the toughest ore they ever encountered and they had to blast their way thru it. The drill has finished the fourth hole in section 8, township 46, range 29 and has removed to the fifth hole. The Duluth-Brainerd Mining company expects to sink a shaft in the 160 acre tract it has in section 32, township 47, range 29. This is claimed to be some of the finest manganese ever found.

The High Grade Manganese Ore Co. is drilling in section 33, township 47, range 29, about 40 rods from the Vermes-Cuyuna people. They are working on their fourth hole.

Cuyler Adams had a drill near Cuyuna and west of the Kennedy mine. C. W. Potts of Deerwood, has a drill at June lake in section 9, township 46, range 29 and is drilling for Superior parties.

The Stowell Exploration Co. has four drills at work on the Clearwater range, one in section 4, township 45, range 28; two in section 8, township 45, range 28 and one in section 24, township 45, range 29.

Aitkin county is being explored. Twenty drills are at work, one at Cedar lake, one at Squagagama, four in the Rice river country, three at Kimberly and several south of that point. T. R. Foley of Aitkin, is doing much in the way of exploration.

Pumps are expected next week at the Iron Mountain Co. property to unwater the shaft. A full force of men will be set to work, and the property which has been idle some time will be a scene of activity. Shafts may be sunk this season in sections 28, 30 and 33, township 47, range 29.

W. H. Bedow of Fort Ripley has given an option for a mining lease to D. Arthur Ryan of Duluth, and covering lots 2 and 3 in section 16, township 43, range 32. The option dates one year from March 13, 1914 and the lease, if taken, extends 99 years with a royalty of 15 cents a ton and a minimum tonnage of 3,000 tons the first year, 4,000 tons the second year, 5,000 tons the third year, 6,000 tons the fourth year and 10,000 tons the fifth year, and every year thereafter.

C. A. Bogren has given an option for a mining lease to Jake Kohlsaat and Marcus Grande of Barrows, on lot 6 in section 1, township 136, range 27, being 39 acres.

The tract is to be drilled six months and the property may be held a year to turn it over. If a lease is taken then \$50 an acre is to be paid as advance royalty and 5 cents a ton royalty on ore with a minimum output of 25,000 tons a year, the lease being of 50 years duration.

Richard Steedman Patrick has sold to William G. Joerns an undivided 1-64 interest in the northeast quarter of section 31, township 44, range 31. George P. Coleman has sold to the Montrose Co. the undivided 1-24 interest in the southwest quarter of the northwest quarter and the west half of the southwest quarter of section 26, township 136, range 26. Samuel S. Farley has sold to Edmund Schnirli the southeast quarter of the northwest quarter and lot 3 of section 1, township 136, range 29 for \$1292. John Leslie has sold to Edmund Schnirli lots 1 and 2 in section 1, township 136, range 29 for \$1,496.

David Archibald has sold to Duncan Smith lot 3 or the southwest quarter of the northwest quarter of section 3, township 45, range 28 for \$3,455. Barney Eden has sold to Thomas A. Merritt the south half of the northeast quarter and the east half of the southeast quarter of section 26, township 44, range 32.

Thomas S. McClure has sold to each of Francis L. Fray and John W. Redlund an undivided 1-12 interest in the east half of the southeast

GREAT MONEY KING J. P. MORGAN DEAD

Special to Dispatch:

Rome, Italy, March 31—J. Pierpont Morgan, the great American financier and money king, died at the Grand hotel here today, the actual time of his demise being given as 12:05 P. M. The announcement of the death was not made to the waiting newspaper men for some time after the end came. The information was held up until private cables could be sent to the London and New York houses of the Morgan firms.

The end came peacefully while Morgan was still unconscious. Herbert L. Satterlee, Mrs. Satterlee, daughter of the financier and three physicians were at the bedside, but for hours before his death the banker gave no sign of consciousness.

quarter of section 30, township 137, range 26, and to John C. Rickard an undivided 1-12 interest in the southeast quarter of the northeast quarter and an undivided 1-12 interest in lot 5 of section 17, township 136, range 27.

John C. Campbell has sold to James T. Joyce a 2-16 interest (undivided) in the west half of the southwest quarter, the northeast quarter of the southwest quarter of section 20, township 46, range 28 for \$2850. Cuyler Adams of Deerwood has sold to L. A. Barton of Duluth, an undivided 1-8 interest in the northeast quarter of the southeast quarter of section 6, township 45, range 29. Lena Butler has sold to John Swinland an undivided 1-25 interest in the east half of the northwest quarter, the southwest quarter of the northwest quarter, the northwest quarter of the southwest quarter of section 8, township 45, range 29.

"The Great Divide"

"The Great Divide" by America's youngest poet and playwright, William Vaughn Moody, is the attraction scheduled at the Brainerd opera house on Tuesday evening, April 1. The severest critics of the world have lavished untold praise upon this great American play from San Francisco to New York.

Presented the first time in this country by Henry Miller, it was played 500 times at the Princess and Daly's theatres in New York city. Heretofore attractions which have endeavored to portray the real mountain characters of the Cordilleras were plays designed for cheap sensational appeal. But "The Great Divide" is literature that will endure, while at the same time it is one of the most human plays ever produced.

Complete in scenic effects, and played by an excellent cast of picked players, the production comes to us under the management of Mr. C. S. Primrose, one of the foremost of western producers, who has in the past season furnished the west with such high class offerings as "The Thief," "Paid in Full," "The House of a Thousand Candles," etc.

"The Rosary"

Despite the chief character of a Catholic priest, "The Rosary," which will be seen at the Brainerd opera house soon, is non-sectarian. This is the play which broke so many attendance records last season, and thus far, judging from the size of the audiences in other cities, the public hasn't tired of it. Mingled with the darker colors of human tragedy is a vein of natural comedy evolved from the events which materialize during the action of the play. The role of Father Brian Kelly is cleverly interpreted by Mr. Harry Terry.

On next Monday evening, April 7, the Grand theater will give the net receipts of its performances for the benefit of the stricken people. The Grand is to be commended for its enterprise and the desire it has shown to relieve distressed humanity.

The Childrens Hour has just sent in a check for \$3 and the Dispatch is glad to transmit the donation.

Judge G. W. Holland, with the promptness and generosity which stamps him as one of Brainerd's public spirited citizens, this afternoon contributed his check for \$25 for the relief of the flood sufferers.

RAILROAD NOTES

The Northern Pacific will have a busy time on the Jamestown division this summer. The Jamestown yards, which were so badly crowded with grain shipments last fall from the main line and three branches, will be enlarged at least 25 per cent. The 90-pound steel rails between Jamestown and Mandan are to be replaced with 100-pound; 70-pound rail are to be laid on the branch between Jamestown and Oakes, and at least a dozen work trains will be operated out of Jamestown all summer. Work is to be started early next month.

The Northern Pacific has created two freight yards acting as buffers or branch terminals to relieve the congestion at the Twin Cities and Twin Ports. At St. Paul and Minneapolis this will be White Bear. At Duluth and Superior it will be Carlton.

Work being done at Aitkin is evidence that the Northern Pacific is preparing for the ore hauling season.

The Northern Pacific ore docks and the Soo docks handling Cuyuna ore being at Superior the 60 cent rate established by the Soo and acquiesced in by the Northern Pacific will not be bothered by any Cashman distance tariff law, as it is an interstate haul.

3 FEET OF BOWELS REMOVED

Ed. Lehrke of Ironton Operated on at Northwestern Hospital for Strangulated Hernia

Ed. Lehrke, of Ironton, has had removed over three feet of his intestines, or to be more accurate 39 inches. Suffering with strangulated hernia, the restaurant man was brought from the mining town to the Northwestern hospital and was in such serious condition that he was operated on the same night he entered the institution. Next morning another operation was performed.

Within the ten weeks and two days he was at the hospital two more operations were performed. His life was saved and he was entirely cured. The case is unique in surgical annals and the cure redounds to the credit of the hospital.

LISTEN, FELLERS!

Spring is Here and the Baseball Season Will Soon be On

The Dispatch will as usual devote space to amateur baseball ranging from the kid teams to the big fellows, and we want you to send in your stuff. The Dispatch is the only paper giving publicity to the future big leaguers and efforts will be made to make the sporting news better than ever this season. Write short accounts of the games. Write legibly and only on one side of the paper.

At a meeting held at the South Side club yesterday the "Brainerd Speedwells" elected the following officers: Manager George Frieker, treasurer captain John Cudahy, jr., secretary Frank Butke. The Speedwells are a live baseball organization and issue a challenge to any 18 year old team in Brainerd or vicinity.

The Eagle lodge is organizing a baseball team.

The regular city team is being organized. Tom Templeton, captain, recently returned from Hot Springs, Ark.

Reports from outside towns indicate that sentiment for a Central Minnesota baseball league is dead and that each former league team will have to get up a series of its own games.

DEVELOPMENTS OF WEEK ON RANGE

Activity of Brainerd-Cuyuna Mining Co.—The Longyear Drills Near Brainerd

20 DRILLS IN AITKIN COUNTY

Two Options For Mining Leases Filed—Stowell Exploration Co's. Four Drills

Additional pumps have been placed at the Barrows mine of the Virginia Ore Mining company at Barrows on the south range and the water will soon be out of the shaft and mining will be resumed.

At the Adams mine of Cuyler Adams and associates at Orelund good progress is being made in sinking by Contractor Buzzo of Eveleth. The Orelund townsite company plans on erecting 10 additional houses.

The Brainerd-Cuyuna Mining company which has blocked out several million tons of ore on the south side of Brainerd plans to sink a shaft this spring. This lies in the same trend of ore with the ore found in the lands of Fritz Koop, the Baker Mining company, Joseph Rosko, Sr., Henry I. Cohen and the land of Judge G. W. Holland to the east, all being Brainerd men or companies and including also the lands of Charles Neimeyer of Duluth and other interests. It is expected to get the Soo to tap these deposits.

Two drills of the E. J. Longyear company of Minneapolis, are working in section 13, township 45, range 30 and two drills in section 31, township 47, range 28 south of Cuyuna.

The Vermes-Cuyuna Mining & Development company has struck ore in its fourth hole, being good manganese. The Helmer Exploration company drilling it says it is the toughest ore they ever encountered and they had to blast their way thru it. The drill has finished the fourth hole in section 8, township 46, range 29 and has removed to the fifth hole.

The Duluth-Brainerd Mining company expects to sink a shaft in the 160 acre tract it has in section 32, township 47, range 29. This is claimed to be some of the finest manganese ever found.

The High Grade Manganese Ore Co. is drilling in section 33, township 47, range 29, about 40 rods from the Vermes-Cuyuna people. They are working on their fourth hole.

Cuyler Adams had a drill near Cuyuna and west of the Kennedy mine.

C. W. Potts of Deerwood, has a drill at June lake in section 9, township 46, range 29 and is drilling for Superior parties.

The Stowell Exploration Co. has four drills at work on the Clearwater range, one in section 4, township 45, range 28; two in section 8, township 45, range 28 and one in section 24, township 45, range 29.

Aitkin county is being explored. Twenty drills are at work, one at Cedar lake, one at Squagagama, four in the Rice river country, three at Kimberly and several south of that point. T. R. Foley of Aitkin, is doing much in the way of exploration.

Pumps are expected next week at the Iron Mountain Co. property to unwater the shaft. A full force of men will be set to work, and the property which has been idle some time will be a scene of activity.

Shafts may be sunk this season in sections 28, 30 and 33, township 47, range 29.

W. H. Bedow of Fort Ripley has given an option for a mining lease to D. Arthur Ryan of Duluth, and covering lots 2 and 3 in section 16, township 43, range 32. The option dates one year from March 13, 1914 and the lease, if taken, extends 99 years with a royalty of 15 cents a ton and a minimum tonnage of 3,000 tons the first year, 4,000 tons the second year, 5,000 tons the third year, 6,000 tons the fourth year and 10,000 tons the fifth year, and every year thereafter.

C. A. Bogren has given an option for a mining lease to Jake Kohlstad and Marcus Grande of Barrows, on lot 6 in section 1, township 136, range 27, being 39 acres.

The tract is to be drilled six months and the property may be held a year to turn it over. If a lease is taken then \$50 an acre is to be paid as advance royalty and 5 cents a ton royalty on ore with a minimum output of 25,000 tons a year, the lease being of 50 years duration.

Richard Steedman Patrick has sold to William G. Joerns an undivided 1-64 interest in the northeast quarter of section 31, township 44, range 31. George P. Coleman has sold to the Montrose Co. the undivided 1-24 interest in the southwest quarter of the northwest quarter and the west half of the southwest quarter of section 26, township 136, range 26.

Samuel S. Farley has sold to Edmund Schnir the southeast quarter of the northwest quarter and lot 3 of section 1, township 136, range 29 for \$1292. John Leslie has sold to Edmund Schnir lots 1 and 2 in section 1, township 136, range 29 for \$1,496.

David Archibald has sold to Duncan Smith lot 3 or the southwest quarter of the northwest quarter of section 3, township 45, range 28 for \$3,455. Barney Eden has sold to Thomas A. Merritt the south half of the northeast quarter and the east half of the southeast quarter of section 26, township 44, range 32.

Thomas S. McClure has sold to each of Francis L. Frary and John W. Redlund an undivided 1-12 interest in the east half of the southeast

GREAT MONEY KING J. P. MORGAN DEAD

Special to Dispatch:

Rome, Italy, March 31—J. Pierpont Morgan, the great American financier and money king, died at the Grand hotel here today, the actual time of his demise being given as 12:05 P. M. The announcement of the death was not made to the waiting newspaper men for some time after the end came. The information was held up until private cables could be sent to the London and New York houses of the Morgan firms.

The end came peacefully while Morgan was still unconscious. Herbert L. Satterlee, Mrs. Satterlee, daughter of the financier and three physicians were at the bedside, but for hours before his death the banker gave no sign of consciousness.

quarter of section 30, township 137, range 26, and to John C. Rickard an undivided 1-12 interest in the southeast quarter of the northeast quarter and an undivided 1-12 interest in lot 5 of section 17, township 136, range 27.

John C. Campbell has sold to James T. Joyce a 2-16 interest (undivided) in the west half of the southwest quarter, the northeast quarter of the southwest quarter of section 20, township 46, range 28 for \$2850. Cuyler Adams of Deerwood has sold to L. A. Barton of Duluth, an undivided 1-8 interest in the northeast quarter of the southeast quarter of section 6, township 45, range 29. Lena Butler has sold to John Swinland an undivided 1-25 interest in the east half of the northwest quarter, the southwest quarter of the northwest quarter, the northwest quarter of the southwest quarter of section 8, township 45, range 29.

"The Great Divide"

"The Great Divide" by America's youngest poet and playwright, William Vaughn Moody, is the attraction scheduled at the Brainerd opera house on Tuesday evening, April 1. The severest critics of the world have lavished untold praise upon this great American play from San Francisco to New York.

Presented the first time in this country by Henry Miller, it was played 500 times at the Princess and Daly's theatres in New York city. Heretofore attractions which have endeavored to portray the real mountain characters of the Cordilleras were plays designed for cheap sensational appeal. But "The Great Divide" is literature that will endure, while at the same time it is one of the most human plays ever produced.

Complete in scenic effects, and played by an excellent cast of picked players, the production comes to us under the management of Mr. C. S. Primrose, one of the foremost of western producers, who has in the past season furnished the west with such high class offerings as "The Thief," "Paid in Full," "The House of a Thousand Candles," etc.

"The Rosary"

Despite the chief character of a Catholic priest, "The Rosary," which will be seen at the Brainerd opera house soon, is non-sectarian. This is the play which broke so many attendance records last season, and thus far, judging from the size of the audiences in other cities, the public hasn't tired of it. Mingled with the darker colors of human tragedy is a vein of natural comedy evolved from the events which materialize during the action of the play. The role of Father Brian Kelly is cleverly interpreted by Mr. Harry Terry.

You Know Us

We are in business right here where you live. You are an acquaintance, neighbor or a friend of ours. This money-back-if-not-satisfied offer should prove the sincerity of our claims.

When we say we believe we have the best laxative and back up our statement with our unequalled promise to return without question or formality the money paid us for it, if it does not prove entirely satisfactory to you, we believe we are entitled to your confidence.

Our business success and prestige depend upon your confidence in us. We know we must secure and hold your confidence in order to get and keep your patronage. Therefore, we would not dare make this offer if we were not positively certain that we can prove our claims for

Reall Orderlies

Our experience with them and the many reports we have received from those who have used them prove that they are really the most pleasing and satisfactory bowel remedy we know of.

Reall Orderlies taste like candy. They are soothing and easy in action. They don't cause griping, nausea, purging or excessive looseness, as do the usual physics or laxative. Reall Orderlies seem to act as a tonic-strengthening upon the nerves and muscles of the bowels. They prompt-

ly relieve constipation. They act to overcome the cause of constipation. They tend to eliminate the cause of sick headache, biliousness, bad breath, nervousness and other ill attendant upon inactive bowels.

Make Us Prove This

We want you to come to our store and get a package of Reall Orderlies. Use a few or use up the entire box. Then, if you are not entirely satisfied, come back and tell us and we will promptly return the money you paid us for them.

You promise nothing—you sign nothing—you obligate yourself to us in no way whatever. We accept your mere word.

Don't you now believe that Reall Orderlies are worthy of a trial? Could any offer be more fair?

Try Them at Our Risk

We particularly recommend Reall Orderlies for children, aged persons and for delicate people.

Reall Orderlies come in vest pocket tin boxes. 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c. Usual dose one tablet.

CAUTION: Please bear in mind that Reall Orderlies are not sold by all druggists. You can buy Reall Orderlies only at The Rexall Stores.

You can buy Reall Orderlies in this community only at our store:

JOHNSON'S PHARMACY

Communication

BRAINERD, March 30, 1913.

Editor Dispatch:

In the columns of your paper of March 28, was an article signed "A Citizen," which is a non-de-plume frequently used by those who like to shout and see their articles in print but who lack the SAND to sign their own names.

The article states that if any one is making a dirty campaign it is the Journal Press and the Socialist Press Committee.

Just to pick a few of the dirty remarks out of this article, and to give the people, the benefit of my knowledge and any part of my doings in connection therewith, I have the following to offer.

For about three years I have been a member of the ordinance committee of the city council. To assist this committee, and to do the legal work for the committee, the following commission of attorneys were appointed: Mr. W. W. Bane, Mr. Crowell and Mr. Swanson, now county attorney.

Mr. Crowell very soon tired and fell by the wayside and did no more of the work. I called a considerable number of meetings of the committee and such of our work as was completed, has been submitted to the council and had its first reading. A number of meetings of the committee were called by me and during these meetings work was mapped out for the attorneys to do. Some of this has been done and a lot has not been done. The last meeting of the committee a lot of work was mapped out for the attorneys, and it never has been done. An important ordinance, being a building code for the city of Brainerd was about completed at the time the Commercial Club advertised that a group of fire underwriters and fire insurance men were to be here and the public was invited.

As a result of that meeting it was decided to turn a copy of our ordinance over to the Fire Underwriters, which was done and this copy went to Minneapolis and later to New York, to get as they stated expert revision of the ordinance to make it complete in every respect. I have tried several times to get action from the people who were at that Commercial Club, and made such a holler there about fire prevention, but I can not get any action on our ordinance from those people.

I reported to the city council, that the attorneys were not doing their part of the work and that I as chairman would not call another meeting of that committee until they did their work. I am willing to assist in this work, but I am not willing to run down town one, or two nights or more a week on it and not accomplish anything.

In regards to the meeting in the Gardner block, which the writer seems to think I would like to keep dark, he is very much mistaken. This meeting was called with the approval of four republicans and one independent who were on the city council at that time, and was arranged for by Attorney Crowell with the approval of Mr. J. S. Gardner then alderman from the first ward.

This meeting was called for the purpose of considering the advisability of preferring charges against Commissioner Mahlum of the water and light board, and to determine what the members of the council thought best to do. It being represented to me at that time by various down town people that there were five votes in the city council outside of the socialists who thought Mahlum should be ousted, a statement which I never believed, as to the number of aldermen of that opinion and which was later verified by the vote in the city council. In connection with this matter I will state that I have been repeatedly informed that undue influence was used on one alderman in connection with the Mahlum case.

The article refers to Mayor Ousdahl's administration. Let us see what he stood for.

The making of a survey of all points available to secure a source of pure water for the city of Brainerd, something that your Commercial Club lately has woke up to the necessity of doing.

The building of a combined water and light power plant, to be owned by the city.

Had Mr. Ousdahl's plans been carried out we would today have had the above questions settled for the city of Brainerd, but the interference of the members mainly of the Commercial Club and some peanut politics, as Attorney Polk called it, is responsible for the present condition of affairs.

The writer refers to Milwaukee and Bemidji. Yes we were beat in Milwaukee by a combination of the Democrats-Republicans together with the assistance of certain religious bodies, but we increased our vote considerably over the election when we carried Milwaukee, and let me tell the independents, republicans and democrats that you can not stand many of those kind of defeats.

In Bemidji, everything possible from the saloons and sports to religious bodies worked against the socialists and wait for the result, it will re-act in Bemidji. You can not today get your republicans and democrats together in an independent or non-partisan organization, and keep harmony in such an organization. Milwaukee today would like to rid itself of its demo-republican mayor as is shown by the recall papers that have been circulated in various parts of that city.

When the Toltz question was up

Mayor Ousdahl went to Huron, S. D., and Deadwood S. D., to make a personal examination of two plants constructed by the Minneapolis Steel & Machinery Co., returning by way of St. Paul to confer with Mr. Toltz and Mr. Parker and there advising both Mr. Toltz and Mr. Parker not to have anything to do with the Minneapolis Steel & Machinery people and when he found out that Mr. Toltz had signed the contract he squarely placed the matter before Mr. Parker who after Mr. Ousdahl's report on the trip to South Dakota, invested his money of his own volition.

I want to say further that when Mr. Ousdahl attempted to organize a local company to build a light plant for the city of Brainerd, Mr. C. N. Parker was the most willing assistant that he had and that from that experience I am safe in saying that Mr. Ousdahl would not under any circumstances lead such a friend into an investment which was handled as Mr. Toltz handled his.

If Mr. Ousdahl has no ability as the writer tries to make out how does it come that the Northern Pacific Ry. Co., has recognized him and promoted him to a responsible position as a construction engineer and superintendent of many of its large improvement enterprises.

Respectfully yours,

R. A. HENNING.

ROGER LAKE BRIEFS

Mrs. Peter Olson visited with Mrs. Fred Stucke Tuesday afternoon.

Mr. Roy Jones called on Miss Edith Caird Friday evening.

The dance given at the Ackerman home was attended by a large and lively crowd. Everybody reported a fine time.

Ross Baker is hauling logs to the Richter mill.

Mr. Wm. Moritz spent Sunday evening with the Stucke family.

Mrs. F. Richter and Miss Caird called on Mrs. Richter's parents, Mr. and Mrs. Baker Saturday afternoon.

Mr. Peter Olson, Jr., and Fred Stucke, Jr., have been on the sick list.

Fred Moritz who is attending school at Aitkin, spent his Easter vacation at home.

Stucke, Sr., and Fred Stucke, Jr., visited at the Wm. Moritz home.

A runaway team was seen coming up the stage road the other day and upon close investigation a young man and lady were seen in the box of the sleigh. No damage done.

Mr. Roy Jones, Miss Edith Caird and Mrs. I. Baker called at the Draper home Sunday.

"SLIM."

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapiesin" Stops Fermentation and Makes Your Upset Stomach Feel Fine in 5 Minutes

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what on just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and ructate undigested food; breath foul; tongue coated—just take a little Diapiesin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quick, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

Adv.

BRAINERD WOMEN SAVE MUCH MONEY

Instead of so much meat a great many Brainerd housekeepers are now serving "Minnesota" Macaroni twice a week. They say the men folks are not only glad to see them save the meat money, but like the delicious nut-like flavor of "Minnesota" Macaroni much better than meat.

To those who do not know what a big difference there is in macaroni as sold at the stores, the rich, delicious, flavor of "Minnesota" Macaroni will be a revelation. It is four times as nutritious as beef-steak, is much easier to digest and costs only about one cent a dish.

Try the handy "Minnesota" Cut Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Advtd.

HOW FINANCES ARE HANDLED

Under St. Paul Commission Charter City Funds are in Hands of Commissioner of Finance

CITY TREASURER ABOLISHED

All Cash Received by the City Must be Turned Over to the Commissioner of Finance

J. W. Bennett, appointed by the city of St. Paul to put into effect its new commission form of government, writes about the duties of the commissioner of finance, the officer who under the new charter takes the place of a city treasurer. Mr. Bennett says:

City funds are kept under the St. Paul commission charter by the commissioner of finance. As the readers of these articles will remember, the commissioner of finance is one of the six men who with the mayor constitute the city council. He is assigned by the mayor to be head of the department of finance. Practically he is a committee of one from the council to manage that department. Of course he retains his place and performs his duties as councilman also.

The new charter abolishes the office of city treasurer, which has been an elective office. The commissioner of finance has power to appoint a deputy, a cashier and such other officers and assistants as may be necessary to do the business of his department. The council fixes the salaries of his minor employees.

Besides keeping the funds, the city treasurer pays out all cash paid out by the city. He deposits the funds in such banks as may be designated by the sinking fund committee made up of the mayor, commissioner of finance and comptroller. Depository bonds are required or the banks may deposit securities of the city as security for the deposits. The securities bear interest while thus on deposit.

All cash received by the city must be turned over to the commissioner of finance. All departments receiving cash must make daily returns to the commissioner. The treasurer issues receipts in duplicate, one of which goes to the person paying the money and one to the comptroller, who keeps a controlling account with the treasurer.

The commissioner of finance is also a member of the water board, and as commissioner is treasurer of the board, which is a city department. He collects the water frontage tax.

All local improvement assessments are made and collected by the commissioner of finance. This is an important function, since these assessments run above a million dollars a year at times. Dealing with these assessments is a function of the commissioner of public works and the council as well as of the treasurer.

With the mayor and the comptroller, he deals with the issue of city bonds and other securities. He takes part in investment of city funds for the sinking fund.

The commissioner of finance reports daily to the comptroller and is checked up daily as to city funds by the comptroller. He appoints under civil service rules, except his deputy. As is the case with all other councilmen commissioners, he has plenty to do. All the commissionerships are of great importance, although hardly so important as the place of comptroller or mayor.

J. W. BENNETT

You Know Us

We are in business right here where you live. You are an acquaintance, neighbor or a friend of ours. This money-back-if-not-satisfied offer should prove the sincerity of our claims.

When we say we believe we have the best laxative and back up our statement with our unqualified promise to return without question or formality the money paid us for it, if it does not prove entirely satisfactory to you, we believe we are entitled to your confidence.

Our business success and prestige depend upon your confidence in us. We know we must secure and hold your confidence in order to get and keep your patronage. Therefore, we would not dare make this offer if we were not positively certain that we can prove our claims for

Reall Orderlies

Our experience with them and the many reports we have received from those who have used them prove that they are really the most pleasing and satisfactory bowel remedy we know of.

Reall Orderlies taste like candy. They are soothing and easy in action. They don't cause griping, nausea, purging or excessive looseness, as do the usual physic or laxative. Reall Orderlies seem to act as a tonic-strengtheners upon the nerves and muscles of the bowels. They prompt-

Make Us Prove This

We want you to come to our store and get a package of Reall Orderlies. Use a few or use up the entire box. Then, if you are not entirely satisfied, come back and tell us and we will promptly return the money you paid us for them.

You promise nothing—you sign nothing—you obligate yourself to us in no way whatever. We accept your mere word.

Don't you now believe that Reall Orderlies are worthy of a trial? Could any offer be more fair?

Try Them at Our Risk

We particularly recommend Reall Orderlies for children, aged persons and for delicate people.

Reall Orderlies come in vest pocket tin boxes. 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c. Usual dose one tablet.

CAUTION: Please bear in mind that Reall Orderlies are not sold by drug-gists. You can buy Reall Orderlies only at The Rexall Stores.

You can buy Reall Orderlies in this community only at our store:

Communication

Brainerd, March 30, 1913.

Editor Dispatch:

In the columns of your paper of March 29, was an article signed "A Citizen," which is a non-de-plume frequently used by those who like to shout and see their articles in print but who lack the SAND to sign their own names.

The article states that if any one is making a dirty campaign it is the Journal Press and the Socialist Press Committee.

Just to pick a few of the dirty remarks out of this article, and to give the people, the benefit of my knowledge and any part of my doings in connection therewith, I have the following to offer.

For about three years I have been a member of the ordinance committee of the city council. To assist this committee, and to do the legal work for the committee, the following commission of attorneys were appointed: Mr. W. W. Bane, Mr. Crowell and Mr. Swanson, now county attorney.

Mr. Crowell very soon tired and fell by the wayside and did no more of the work. I called a considerable number of meetings of the committee and such of our work as was completed, has been submitted to the council and had its first reading. A number of meetings of the committee were called by me and during these meetings work was mapped out for the attorneys to do. Some of this has been done and a lot has not been done. The last meeting of the committee a lot of work was mapped out for the attorneys, and it never has been done. An important ordinance, being a building code for the city of Brainerd was about completed at the time the Commercial Club advertised that a group of fire underwriters and fire insurance men were to be here and the public was invited. As a result of that meeting it was decided to turn a copy of our ordinance over to the Fire Underwriters, which was done and this copy went to Minneapolis and later to New York, to get as they stated expert revision of the ordinance to make it complete in every respect. I have tried several times to get action from the people who were at that Commercial club, and made such a holler there about fire prevention, but I can not get any action on our ordinance from those people.

I reported to the city council, that the attorneys were not doing their part of the work and that I as chairman would not call another meeting of that committee until they did their work. I am willing to assist in this work, but I am not willing to run down town one, or two nights or more a week on it and not accomplish anything.

In regards to the meeting in the Gardner block, which the writer seems to think I would like to keep dark, he is very much mistaken. This meeting was called with the approval of four republicans and one independent who were on the city council at that time, and was arranged for by Attorney Crowell with the approval of Mr. J. S. Gardner then alderman from the first ward.

This meeting was called for the purpose of considering the advisability of preferring charges against Commissioner Mahlum of the water and light board, and to determine what the members of the council thought best to do. It being represented to me at that time by various down town people that there were five votes in the city council outside of the socialists who thought Mahlum should be ousted, a statement which I never believed, as to the number of aldermen of that opinion and which was later verified by the vote in the city council. In connection with this matter I will state that I have been repeatedly informed that undue influence was used on one alderman in connection with the Mahlum case.

The article refers to Mayor Ousdahl's administration. Let us see what he stood for.

The making of a survey of all points available to secure a source of pure water for the city of Brainerd, something that your Commercial club lately has woke up to the necessity of doing.

The building of a combined water and light power plant, to be owned by the city.

Had Mr. Ousdahl's plans been carried out we would today have had the above questions settled for the city of Brainerd, but the interference of the members mainly of the Commercial club and some peanut politics, as Attorney Polk called it, is responsible for the present condition of affairs.

The writer refers to Milwaukee and Bemidji. Yes we were beat in Milwaukee by a combination of the Democrats-Republicans together with the assistance of certain religious bodies, but we increased our vote considerable over the election when we carried Milwaukee, and let me tell the independents, republicans and democrats that you can not stand many of those kind of defeats.

In Bemidji, everything possible from the saloons and sports to religious bodies worked against the socialists and wait for the result, it will re-act in Bemidji. You can not today get your republicans and democrats together in an independent or non-partisan organization, and keep harmony in such an organization. Milwaukee today would like to rid itself of its demo-republican mayor as is shown by the recall papers that have been circulated in various parts of that city.

When the Toltz question was up

Mayor Ousdahl went to Huron, S. D., and Deadwood S. D., to make a personal examination of two plants constructed by the Minneapolis Steel & Machinery Co., returning by way of St. Paul to confer with Mr. Toltz and Mr. Parker and there advising both Mr. Toltz and Mr. Parker not to have anything to do with the Minneapolis Steel & Machinery people and when he found out that Mr. Toltz had signed the contract he squarely placed the matter before Mr. Parker who after Mr. Ousdahl's report on the trip to South Dakota, invested his money of his own volition.

I want to say further that when Mr. Ousdahl attempted to organize a local company to build a light plant for the city of Brainerd, Mr. C. N. Parker was the most willing assistant that he had and that from that experience I am safe in saying that Mr. Ousdahl would not under any circumstances lead such a friend into an investment which was handled as Mr. Toltz handled his.

If Mr. Ousdahl has no ability as the writer tries to make out how does it come that the Northern Pacific Ry. Co., has recognized him and promoted him to a responsible position as a construction engineer and superintendent of many of its large improvement enterprises.

Respectfully yours,
R. A. HENNING.

State of Ohio, city of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

ROGER LAKE BRIEFS

Mrs. Peter Olson visited with Mrs. Fred Stucke Tuesday afternoon.

Mr. Roy Jones called on Miss Edith Caird Friday evening.

The dance given at the Ackerman home was attended by a large and lively crowd. Everybody reported a fine time.

Ross Baker is hauling logs to the Richter mill.

Mr. Wm. Moritz spent Sunday evening with the Stucke family.

Mrs. F. Richter and Miss Caird called on Mrs. Richter's parents, Mr. and Mrs. Baker Saturday afternoon. Mr. Peter Olson, Jr., and Fred Stucke, Jr., have been on the sick list.

Fred Moritz who is attending school at Aitkin, spent his Easter vacation at home.

Stucke, Sr., and Fred Stucke, Jr., visited at the Wm. Moritz home.

A runaway team was seen coming up the stage road the other day and upon close investigation a young man and lady were seen in the box of the sleigh. No damage done.

Mr. Roy Jones, Miss Edith Caird and Mrs. I. Baker called at the Draper home Sunday.

"SLIM."

TO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapepsin" Stops Fermentation and Makes Your Upset Stomach Feel Fine in 5 Minutes

Wonder what upset your stomach—which portion of the food did the amage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what on just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and ructate undigested food; breath foul; tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is ape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

Adv.

BRAINERD WOMEN SAVE MUCH MONEY

Instead of so much meat a great many Brainerd housekeepers are now serving "Minnesota" Macaroni twice a week. They say the men folks are not only glad to see them save the meat money, but like the delicious nut-like flavor of "Minnesota" Macaroni much better than meat.

To those who do not know what a big difference there is in macaroni as sold at the stores, the rich, delicious, flavor of "Minnesota" Macaroni will be a revelation. It is four times as nutritious as beef-steak, is much easier to digest and costs only about one cent a dish.

Try the handy "Minnesota" Cut Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Adv.

HOW FINANCES ARE HANDLED

Under St. Paul Commission Charter City Funds are in Hands of Commissioner of Finance

CITY TREASURER ABOLISHED

All Cash Received by the City Must be Turned Over to the Commissioner of Finance

J. W. Bennett, appointed by the city of St. Paul to put into effect its new commission form of government, writes about the duties of the commissioner of finance, the officer who under the new charter takes the place of a city treasurer. Mr. Bennett says:

City funds are kept under the St. Paul commission charter by the commissioner of finance. As the readers of these articles will remember, the commissioner of finance is one of the six men who with the mayor constitute the city council. He is assigned by the mayor to be head of the department of finance. Practically he is a committee of one from the council to manage that department. Of course he retains his place and performs his duties as councilman also. The new charter abolishes the office of city treasurer, which has been an elective office. The commissioner of finance has power to appoint a deputy, a cashier and such other officers and assistants as may be necessary to do the business of his department. The council fixes the salaries of his minor employees.

Besides keeping the funds, the city treasurer pays out all cash paid out by the city. He deposits the funds in such banks as may be designated by the sinking fund committee made up of the mayor, commissioner of finance and comptroller. Depository bonds are required or the banks may deposit securities of the city as security for the deposits. The securities bear interest while thus on deposit.

All cash received by the city must be turned over to the commissioner of finance. All departments receiving cash must make daily returns to the commissioner. The treasurer issues receipts in duplicate, one of which goes to the person paying the money and one to the comptroller, who keeps a controlling account with the treasurer.

The commissioner of finance is also a member of the water board, and as commissioner is treasurer of the board, which is a city department. He collects the water frontage tax.

All local improvement assessments are made and collected by the commissioner of finance. This is an important function, since these assessments run above a million dollars a year at times. Dealing with these assessments is a function of the commissioner of public works and the council as well as of the treasurer.

With the mayor and the comptroller, he deals with the issue of city bonds and other securities. He takes part in investment of city funds for the sinking fund.

The commissioner of finance reports daily to the comptroller and is checked up daily as to city funds by the comptroller. He appoints under civil service rules, except his deputy. As is the case with all other councilmen commissioners, he has plenty to do. All the commissioners are of great importance, although hardly so important as the place of comptroller or mayor.
